

Before the first lesson

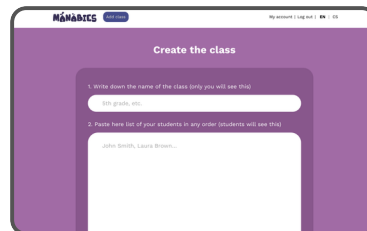

- 1 Create your teacher account at www.manabies.com.

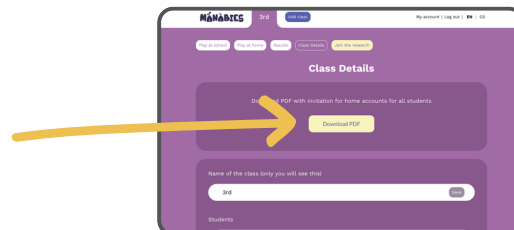

- 2 Click [Create class](#) and add your students.

Good to know:

The class name is visible only to you. Student names are visible to all students in the class. You can copy them from Excel and **edit them later**.

- 3 Print the PDF with the login details and hand it out to your students.

- 4 Set up the game according to the devices your students will be using.

Chromebook, Mac or PC

No installation needed.
During the class just open
manabies.com/play

or

Tablets and smartphones

Install Manabies School Edition
from your store.

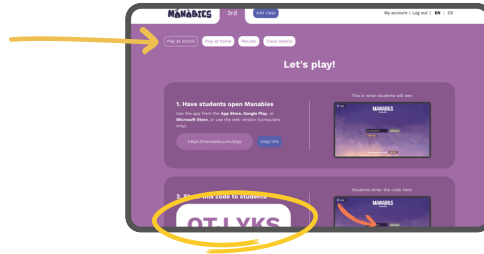

Do this in class

- 1 Click **Start a new play session** and show the class code to your students

Good to know:

It doesn't matter whether they use spaces, lowercase, or uppercase letters.

- 2 Students open manabies.com/play or the app and enter the class code and password.

Tip:

If they're playing in a computer lab, prepare a desktop shortcut for them.

- 3 The player starts with a tutorial that shows them how to play the game on their device.
